Company Profile

Global Procurement, Sourcing, and Supply Chain Solutions

Prepared for clients and partners of BuySmart Procurement Limited

Who We Are

BuySmart Procurement Limited is a procurement and sourcing company built to help businesses and individuals get the right products, from the right suppliers, at the right price, wherever in the world those suppliers happen to be. We handle the research, verification, negotiation, and logistics that sit between a client's need and a delivered product, so our clients can focus on running their business rather than chasing suppliers.

We were built with a long term view. China and Vietnam remain our strongest and most established sourcing markets today, and that expertise is not going anywhere, but our capability extends well beyond those two countries. BuySmart is positioned to support clients sourcing locally and globally, across a wide range of industries and product categories.

Our Vision

To become a trusted global procurement partner, known for reliability, transparency, and the ability to source and deliver quality goods from anywhere in the world, while remaining the go to choice for businesses and individuals sourcing specifically from China and Vietnam.
